Resignation Letter – Gigi Cheung

Dear Central People's Government:

I would like to resign from the post - Prime Minister of HTMC with effect from 3-5-2016.

The reason for my resignation is I think HTMC is not Democracy Server. Only the Council can control the Server State. Also, too many rejected sound from the Council. From my Pro-establishment Camp Whatsapp Group, I find that The Council member was hate me and want to fire me but no reason can be provided. I am very disappointed and scary to this situation. I scary that someone will fire me without Central People's Government's permission. So I don't want to have the bad time in my life. Although I love **HTMC** and **SERVERHOLE**. I have no choice so I resign from the post. I know I will become irresponsible to the server . But I have no choice. I hope the Central People's Government will know.

I will remember my fellow colleagues.

**Gigi**  
**Gigi Cheung**
